|          |                          |                                               |
|----------|--------------------------|-----------------------------------------------|
| High     | Streetwear / Balanced    | Tighten discount depth, exclude low-margin SK |
| High     | Streetwear / Everyday    | Tighten discount depth, exclude low-margin SK |
| High     | Streetwear / Performance | Tighten discount depth, exclude low-margin SK |
| Critical | cod                      | Use payment-specific incentives and controls; |
| High     | Streetwear / XL          | Improve size guidance and target the worst ca |
| High     | Streetwear / S           | Improve size guidance and target the worst ca |
| High     | Streetwear / M           | Improve size guidance and target the worst ca |

CEO message: growth exists, but margin leakage, COD risk, returns, and inventory imbalance decide the next actions.

## Predictive EDA: xu hướng, mùa vụ và tín hiệu dẫn dắt

## Predictive EDA: xu hướng, mùa vụ và tín hiệu dẫn dắt

NON-TABLEAU PREVIEW

**Predictive statement: March-June carry stronger historical revenue seasonality; inventory and return risks should be addressed before these peaks.**

# Profit & Promotion Leakage

Khuyến mãi tạo doanh thu nhưng phá biên lợi nhuận ở một số phân khúc

NON-TABLEAU PREVIEW

## Promotion Margin Risk

Promo Margin %

1.3%

promoted items

No-promo Margin %

20.0%

non-promoted items

## Pricing Actions

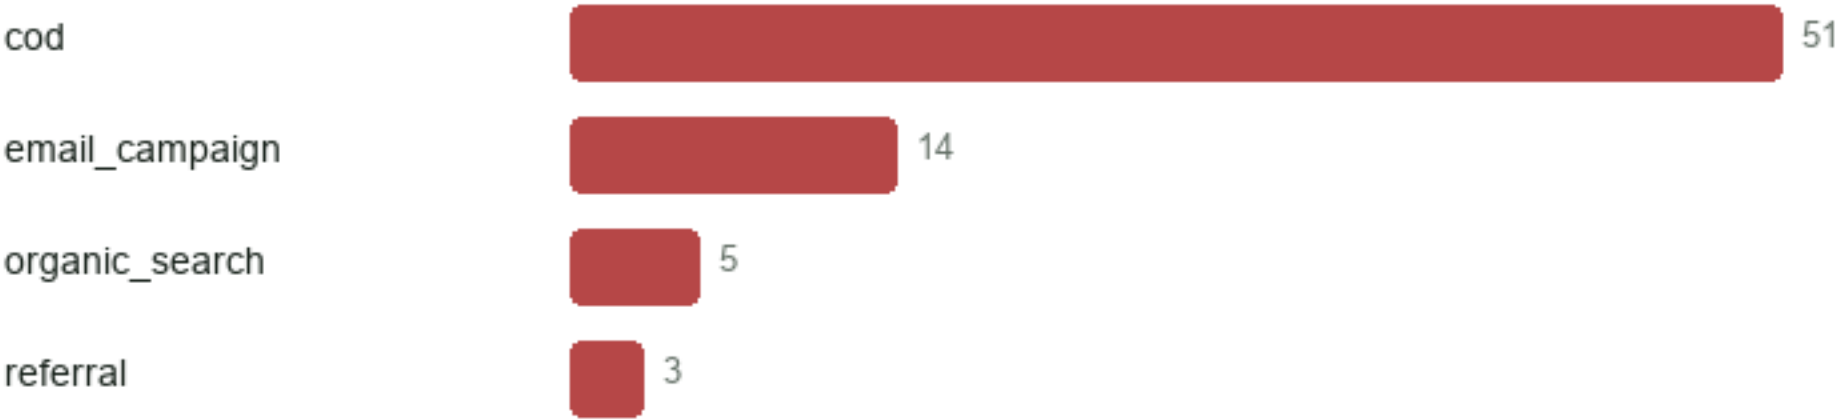

|      |                          |                                               |
|------|--------------------------|-----------------------------------------------|
| High | Streetwear / Balanced    | Tighten discount depth, exclude low-margin SK |
| High | Streetwear / Everyday    | Tighten discount depth, exclude low-margin SK |
| High | Streetwear / Performance | Tighten discount depth, exclude low-margin SK |

# Customer, Channel & Payment Risk

Doanh thu chất lượng thấp theo payment, source và traffic efficiency

NON-TABLEAU PREVIEW

## Payment / Channel Risk

## Risk Controls and Spend Shift

|          |                |                                               |
|----------|----------------|-----------------------------------------------|
| Critical | cod            | Use payment-specific incentives and controls; |
| High     | email_campaign | Shift spend toward channels with stronger rev |
| Medium   | organic_search | Shift spend toward channels with stronger rev |
| Medium   | referral       | Shift spend toward channels with stronger rev |

COD is the main payment risk signal; channel quality should be judged by revenue quality, not sessions alone.

# Returns, Reviews & Fulfillment

Return/refund leakage and customer-experience signals

NON-TABLEAU PREVIEW

## Wrong-size Return Risk

## CX / Merchandising Actions

|      |                 |                                               |
|------|-----------------|-----------------------------------------------|
| High | Streetwear / XL | Improve size guidance and target the worst ca |
| High | Streetwear / S  | Improve size guidance and target the worst ca |
| High | Streetwear / M  | Improve size guidance and target the worst ca |

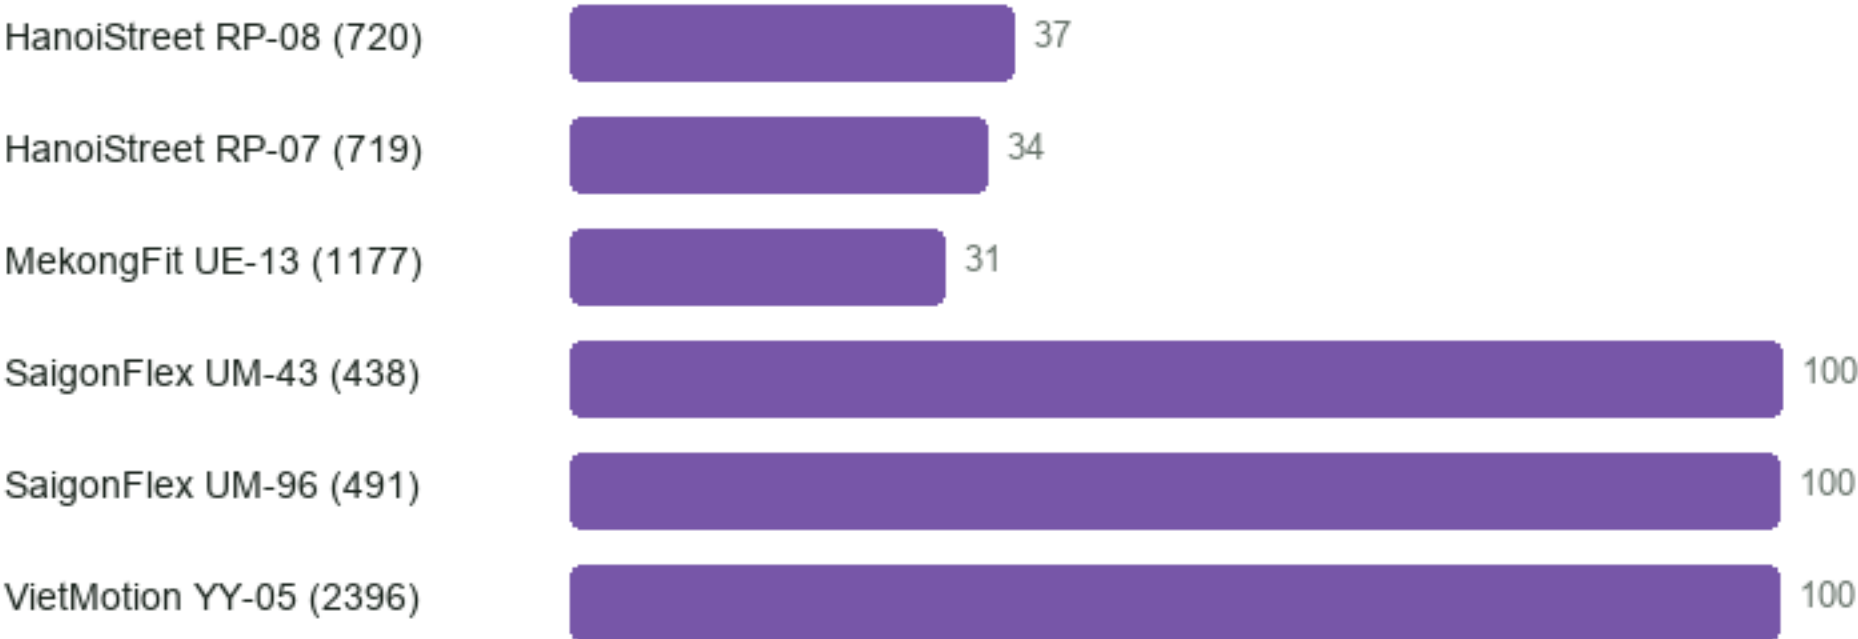

Wrong-size return pressure concentrates in specific Streetwear size combinations; size guidance is a quantified CX intervention.

# Inventory Actions

Stockout và overstock cùng tồn tại, cần quyết định theo quadrant

NON-TABLEAU PREVIEW

## Inventory Risk Score

## Supply Chain Actions

|          |                         |                                               |
